

8th December 2022

TO: ALL BIDDERS

ADDENDUM 1: CLARIFICATION

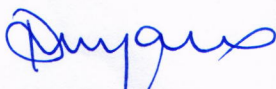

**RE: TENDER FOR SUPPLY & DELIVERY OF 20" SPIRAL WELDED STEEL PIPES FOR
BARINGO SILALI GEOTHERMAL PROJECT – TENDER REF:
GDC/INFRA/OT/033/2022:2023**

In response to the request for clarification, GDC wishes to respond as follows;

No.	Bidders Query	GDC Response
1.	Can we proceed to quote on the 5.5mm instead of the 4mm.	The minimum pipe thickness is 5.5mm
2.	Do the pipe need to be plain end or bevel end	The pipe is plain ended
3.	Is there any requirement for the pipe surface	No preferred pipe surfaces
4.	On list of clients and similar experiences, kindly can we provide the same from the manufacturer	Technical Evaluation - Bidders are allowed to form Joint Venture Agreement (JV) with Manufacturers to meet the requirements for similar assignments handled. The JV agreement should clearly specify the roles and responsibility of each party; however, the lead shall be the local firm. The JV agreement should also be signed and stamped by both parties.

All other requirements/instructions remain unchanged.

Yours faithfully,

DORIS KYAKA
MANAGER, SUPPLY CHAIN
FOR: GEOTHERMAL DEVELOPMENT COMPANY
